DIGIPEN INSTITUTE OF TECHNOLOGY

Since 1988, DigiPen Institute of Technology has been preparing students for lifelong learning and success.

An educational pioneer, we were the first college in the world to offer a bachelor's degree in video game technology and development. Today, we offer a wide range of programs spanning art, design, and computer science. Through a combination of academic rigor and interdisciplinary team-based projects, our educational model empowers students to be active learners, bold problem-solvers, and talented creators — ready to tackle new challenges with passion and knowledge.
